Easy Series Network Camera
Quick Setup Guide

Precautions

Fully understand this document before using this device, and strictly observe rules in this document when using this device. If you install this device in public places, provide the tip: “You have entered the area of electronic surveillance” in an eye-catching place. Failure to correctly use electrical products may cause fire and severe injuries.

WARNING
- It alerts you to moderate dangers which, if not avoided, may cause minor or moderate injuries.
- It alerts you to risks. Neglect of these risks may cause device damage, data loss, device performance deterioration, or unpredictable results.
- It provides additional information.

CAUTION
- Strictly observe installation requirements when installing the device. The manufacturer shall not be held responsible for device damage caused by users’ non-conformance to these requirements.
- Strictly conform to local electrical safety standards and use power adapters that are marked with the LPS standard when installing and using this device. Otherwise, this device may be damaged.
- Use accessories delivered with this device. The voltage must meet input voltage requirements for this device.
- If this device is installed in places with unsteady voltage, ground this device to discharge high energy such as electrical surges in order to prevent the power supply from burning out.
- When this device is in use, ensure that no water or any liquid flows into the device. If water or liquid unexpectedly flows into the device, immediately power off the device and disconnect all cables (such as power cables and network cables) from this device.
- Do not focus strong light (such as lighted bulbs or sunlight) on this device. Otherwise, the service life of the image sensor may be shortened.
- If this device is installed in places where thunder and lightning frequently occur, ground the device nearby to discharge high energy such as thunder strikes in order to prevent device damage.

CAUTION
- Avoid heavy loads, intensive shakes, and soaking to prevent damages during transportation and storage. The warranty does not cover any device damage that is caused during secondary packaging and transportation after the original packaging is taken apart.
- Protect this device from fall-down and intensive strikes, keep the device away from magnetic field interference, and do not install the device in places with shaking surfaces or under shocks.
- Clean the device with a soft dry cloth. For stubborn dirt, dip the cloth into slight neutral cleanser, gently wipe the dirt with the cloth, and then dry the device.
- Do not jam the ventilation opening. Follow the installation instructions provided in this document when installing the device.
- Keep the device away from heat sources such as radiators, electric heaters, or other heat equipment.
- Keep the device away from moist, dusty, extremely hot or cold places, or places with strong electric radiation.
- If the device is installed outdoors, take insect- and moisture-proof measures to avoid circuit board corrosion that can affect monitoring.
- Remove the power plug if the device is idle for a long time.
- Before unpacking, check whether the fragile sticker is damaged. If the fragile sticker is damaged, contact customer services or sales personnel. The manufacturer shall not be held responsible for any artificial damage of the fragile sticker.

NOTE
- For more information, please refer to website.

1 Open Package Examination
Open the package, check the appearance of product for no obvious damage, and confirm the item list for table 1-1 is consistent.

3 Quick Configuration(e.g IE)

3.1 Login
Step 1 Open the Internet Explorer, input the IP address of IP camera (default value is 192.168.0.123) in the address box, and press Enter. The login page is displayed as shown in figure 3-1.
Step 2 Input the user name and password.

NOTE
- The default user name is admin. The default password is admin. Change the password when you log into the system for first time to ensure system security.
- You can change the system display language on the login page.
Step 3 Click Login icon, the main page is displayed.

3.2 Modify IP address
Choose Setting > Network> IP, the Network page is displayed.
Input the IP address in the IP Address box and click Apply as shown in figure 3-2.
After the IP address is set successfully, please use the new IP address to log in the Web interface.

3.3 Browsing Video
To ensure the real-time video can be played properly, user must perform the following operation when you login the web at the first time:
Step 1 the Internet Explorer. Choose Tools > Internet options > Security > Trusted sites > Sites, in the display dialog box, click Add, as shown in figure 3-3.

To browse a real-time video, click Live View. The Live View page is displayed, as shown in figure 3-5.

Set the parameters according to the page and click “apply”:
- If the message “Apply success!” is displayed, click OK to confirm. The system saves the settings.
- If the message “Apply failed!” is displayed, you must apply for the Parameter Configure permission from an administrator.
- If a message indicating that the “bit rate invalid” is displayed, enter a new bit rate value.

To set alarm information, Choose “Setting > Alarm > Motion Detection”, the page is displayed, as shown in figure 3-8.

CAUTION
After you click reset, all parameters will be restored to the factory settings. Use this function carefully.
